

Mobile Application Overview

Fan Friend Mobile Application

This is an overview of how the application works and could work with further development.

The Home screen is the first screen the user sees after opening the application.

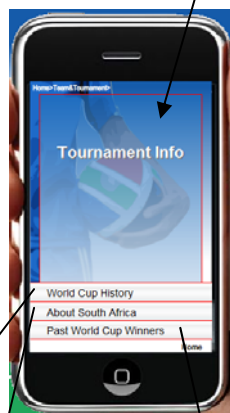

The home page offers the option to navigate to two pages the Team & Tournament page and the Useful Tools page.

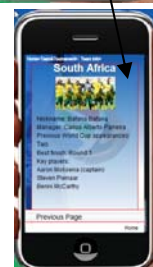

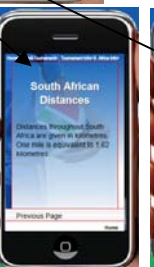

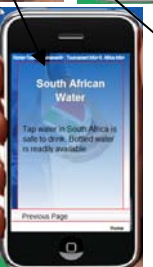

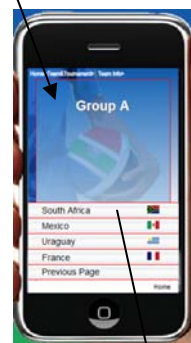

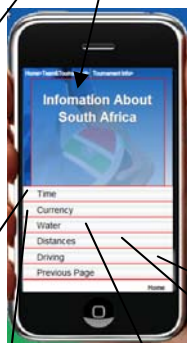

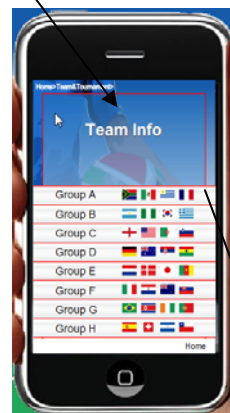

The Team & Tournament page displays links to the Tournament Info page and the Team Info page.

The Tournament Info page links to the World Cup History page, the About South Africa Page and the Past World Cup Winners Page.

The Team Info page links to the World Cup groups and then to the individual profiles.

The Information About South Africa page links to pages with information ranging from the time difference between the UK and South Africa, to what side of the road to drive on in South Africa.

The Useful Tools page links to the Upload Pics page, Write to Blog Page, Add Audio To Your Blog page, Useful South African Phrases page and Currency Calculator page.

Users can upload images from their mobile phones to their own personal gallery and with GPS tagged images will display on the map.

Users can upload personal updates with their own personal mini blog.

Users can upload personal audio updates with their own personal audio blog.

(Please note these features does not work)
